

TEENS: Help Us Learn More About Endometriosis

If you are living with symptoms of endometriosis and/or experience abdominal pain, you may be eligible to participate in the ROSE Study. Your immediate family (siblings and parents) may also be eligible to join the study. ROSE Study researchers are trying to better understand endometriosis and to develop better diagnostics & treatments.

To be eligible, you must :

1. Be at least 12 years old or older
2. Have menstrual cycles

To participate in the study, you must:

1. Assent to participate in the study
2. Have a parent/legal guardian willing to consent for your study participation
3. Share your medical/demographic information
4. Answer questions about your gynecological history
5. Donate a sample of menstrual flow that can be collected at home using a simple procedure
6. Allow ROSE Study researchers to collect excess endometrial tissue samples from a future surgery (if you are undergoing surgery as part of your standard care)

Participants will be compensated for their participation.

If you would like to learn more about how you may play a part in improving the understanding of endometriosis, please contact a research nurse at **516-562-ENDO (3636)**, email **ROSE@northwell.edu**, or web search: **ROSE Study Feinstein**.

ROSE

Research OutSmarts Endometriosis

The ROSE Study is sponsored in part by
the Endometriosis Foundation of America.

*Winner of the 2018 Northwell
Health Innovation Challenge*
